June 8-26

The Center for Gifted and Midwest Torrance Center for Creativity:

A Perspective by the Founder and Director

For more than 30 years, summer programs of The Center for Gifted have provided the kind of joyful immersion in subjects that bright, motivated learners love. Students choose their own learning adventures through an exciting variety of topics and courses that challenge and inspire. With critical and creative thinking as the framework for all learning, active, hands-on participation, problem solving, serendipitous discovery, and the application of innovative ideas are inherent in every classroom.

Full-day and half-day options at all programs, as well as early-morning and late-afternoon extended care hours, serve to support varying family needs and schedules. See complete details, including course offerings, eligibility info, application procedures, and online application, at www.centerforgifted.org. (Please note, grade requirements for summer programs are as of fall 2020.)
