

Dear K-2 Grade Parents/Guardians,

While your students are home, we ask that you continue to partner with us in ensuring ongoing learning. Below is a list of activities we recommend your students complete on a daily basis.

Reading (20 minutes) - Your student can use district online resources including Lexia, RAZ Kids, and Imagine espanol. Help your student read everyday text around your home—cereal boxes, mail, lists, directions, and more. If you have books at home, encourage your student to read and read with them when you can. Reading Packet options are available here.

Writing (20 minutes) - Your student can write cards, letters, and lists. They can write a <u>story</u> or write about something on which they are an expert. If you have online access, students can take a <u>Virtual Field Trip</u> and write about what they see and learn.

Math (30 minutes) - Your student can use Imagine Math for online learning. There are also many ways to practice math at home: counting, making patterns, and helping with recipes are some examples. Math Packet options are available here.

Social Studies (20 minutes) - Your student can learn about social studies online using BrainPOP Jr. or BrainPOP espanole. Discuss a current events or share stories from your childhood to help students learn about social studies.

Science (20 minutes) - Your student can learn about science online using BrainPOP Jr. or BrainPOP espanole.

Exercise (60 minutes a day) - Regular exercise is important to do every day. Movement helps reduce stress and helps students be ready to learn. Link to <u>GoNoodle</u> for online videos for movement and mindfulness. Find daily fitness ideas on this calendar (Eng. Span).

Art/Music (20 minutes) - Art and music help students exercise creativity and self-expression. <u>Link</u> to online classes through Maywood Fine Arts Academy.

Playtime (20 minutes) - "Playing" helps students learn collaboration, communication and good citizenship.

Social Emotional Learning - Visit <u>Parent Toolkit</u> (English, Spanish) for information on child health, social emotional development, and academic topics. Talk with your student about what they are learning and feeling.

Estimados padres / tutores de grados K-2,

Mientras sus estudiantes estén en casa, le pedimos que continúe colaborando con nosotros para garantizar un aprendizaje continuo. A continuación, hay una lista de actividades que recomendamos que sus estudiantes completen diariamente.

Lectura (20 minutos): su estudiante puede usar los recursos en línea del distrito, incluyendo Lexia, RAZ Kids, e Imagine español. Ayude a su estudiante a textos cotidianos en su hogar: cajas de cereales, correo, listas, instrucciones y más. Si tienen libros en casa, anime a su estudiante a leer y leer con ellos cuando pueda. Las opciones del paquete de lectura están disponibles aquí.

Escritura (20 minutos) - su estudiante puede escribir tarjetas, cartas y listas. Pueden escribir una <u>historia</u> escribir sobre algo en lo que son expertos. Si tienen acceso en línea, los estudiantes pueden hacer una <u>excursión virtual</u> y escribir sobre lo que ven y aprenden.

Matemáticas (30 minutos) - su estudiante puede usar Imagine Math para el aprendizaje en línea. También hay muchas maneras de practicar las matemáticas en casa: contar, hacer patrones y ayudar con las recetas son algunos ejemplos. Las opciones del paquete matemático están disponibles aquí.

Estudios Sociales (20 minutos) – Estudios sociales (20 minutos): su estudiante puede aprender sobre estudios sociales en línea utilizando BrainPOP Jr. o BrainPOP español. Discuta eventos actuales o comparta historias de su infancia para ayudar a los estudiantes a aprender sobre estudios sociales.

Ciencia (20 minutos): su estudiante puede aprender sobre ciencia en línea usando BrainPOP Jr. o BrainPOP español.

Ejercicio (60 minutos al día): es importante hacer ejercicio regularmente todos los días. El movimiento ayuda a reducir el estrés y ayuda a los estudiantes a estar listos para aprender. Enlace a <u>GoNoodle</u> para videos en línea para movimiento y atención plena. Encuentra ideas de ejercicio diario en este calendario (<u>Eng</u>, <u>Span</u>).

Arte / Música (20 minutos): el arte y la música ayudan a los estudiantes a ejercitar la creatividad y la autoexpresión. Enlace a clases en línea a través de Maywood Fine Arts Academy.

Recreo (20 minutos) - "Jugar" ayuda a los estudiantes a aprender colaboración, comunicación y buena ciudadanía

Aprendizaje social y emocional – Visite <u>Parent Toolkit</u> (ingles, Español) para obtener información sobre salud infantil, desarrollo social y emocional y temas académicos. Hable con su estudiante sobre lo que está aprendiendo y sintiendo.

sociales, salud

Virtual Field Trips/Tours

Use Google Earth to explore our National Parks.

Badlands National Park

Death Valley National Park

Denali National Park

Everglades National Park

Glacier National Park

Grand Canyon National Park

Great Smoky Mountain National Park

Redwood National and State Parks

Rocky Mountain National Park

Yellowstone National Park

Lesson ideas:

- Design a travel brochure
- Write a newspaper article to describe the location and encourage travel there
- Create a map that shows the location of the national park

Zoos and Web Cams - Observe various zoo animals through web cams.

Smithsonian's National Zoo

San Diego Zoo

Animal Planet Live

National Aquarium: Black Tip Reef Sharks, Jellies, and Pacific Coral Reef Live

Seattle Aquarium: YouTube virtual field trip and lesson

Seattle Aquarium Live Cams

Lesson ideas:

Visit and observe an animal of your choice. Complete one of the following:

- Observe the animal for one week. Record these observations and then write a journal about the animal and its habits.
- Create an informative poster about the animal.
- Describe the animal's habitat.

Planetarium - Explore over 60,000 stars, locate planets, and watch sunrises and solar eclipses. If you enter your location, and you can see all the constellations that are visible in the night sky in your corner of the world.

NASA Commercial Crew Virtual Tours - YouTube series containing virtual tours of training facilities. Learn how the astronauts train for space travel and life aboard the International Space Station.

Smithsonian Latino Center - Features life broadcasts of Latina writers and virtual exhibits around latino cultures. Includes a Latino Virtual Museum Bilingual Teacher Training Took Kit that is now available online and via iTunes U.

Tour various locations from around the world.

The Great Wall of China

Pompeii

Ellis Island - this site also includes some additional activities

Lesson ideas:

Write a journal entry from about a journey to this location.

Create a travel brochure.

Take a trip to Walt Disney World and go on a virtual ride of some of Disney's famous attractions.

Space Mountain

Splash Mountain

Test Track

Expedition Everest

Rock n Roller Coaster

Soarin'

Seven Dwarfs Mine Train

Rise of the Resistance

Mickey and Minnie's Runaway Railway

Slinky Dog Dash

Millenium Falcon/ Smuggler's Run

The letters *are, air, ear,* and *ere* can stand for the vowel sound you hear in *air*.

A. Circle the letters that stand for the vowel sound in each word. The first one has been done for you.

I. dare

2. pear

3. stairs

4. chair

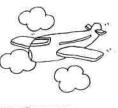

5. there

6. care

When a vowel or a pair of vowels is followed by the letter r, it changes the vowel sound. The vowels and the r stay in the same syllable.

B. Draw a line to break each word into syllables. Then draw a line to the picture. The first one has been done.

7. starling

8. pitcher

9. airplane

Name

Read the poem. Use the visualize strategy to form pictures in your mind about what happens in the poem.

The First Skate

The temperature has been below freezing for days.

- 8 The pond is frozen now,
- 13 The ice is as smooth as glass.
- 20 I can ice skate outdoors
- 25 for the first time this winter.
- 31 I put on my skates,
- 36 Then I step onto the ice,
- 42 Right foot, left foot, right foot, left foot.

opyright @ McGraw-Hill Education

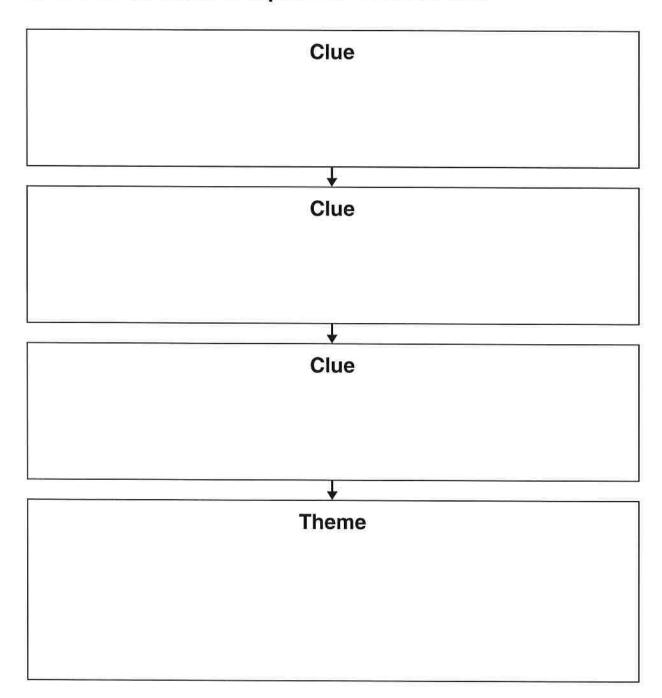

- 50 I look up,
- 53 The sky curves like a blue bowl overhead.
- 61 I look down,
- 64 frozen bubbles in the ice look like crystal beads.
- 73 My cheeks turn as red as apples.
- 80 I skate round the pond,
- 85 Then one last time and I step off the ice.

	Comprehension: Theme and Fluency

,	
2. What does the girl do?	
3. The theme is the main message	of a poem. What is the theme
of this poem?	6 1.
	•
	

B. Work with a partner. Read the poem aloud. Pay attention to how you pause and group words together. Stop after one minute. Fill out the chart.

	Words Read	-	Number of Errors	=	Words Correct Score
First Read		.—		=	
Second Read		»—»		=	

Read the selection. Complete the Theme chart.

A Rainy Day

The rain is falling, falling down,
I don't want to stay inside.
The rain is dripping, dripping slowly,
Will it rain all day?
The rain is stopping, stopping now,
I can go out to play!

Answer the questions about the text.

- I. A poem tells a poet's thoughts and sometimes has repeated words. What is one thing that helps you know this text is a poem?
- 2. What words does the poet repeat in the poem?
- 3. What do the repeated words help you understand about the rain?

A simile compares two different things using the words like or as.

A. Read the lines from the poem. Finish each sentence to tell about the two things the author compares.

I. The ice is as smooth as glass.

The author compares the ice to _______.

2. The sky curves like a blue bowl overhead.

The author compares the sky to ______.

3. Frozen bubbles in the ice look like crystal beads.

The author compares the frozen bubbles to _____

4. My cheeks turn as red as apples.

The author compares the girl's cheeks to ______.

- B. Circle the answer to complete each sentence.
- 5. The author compares the ice to glass because they are both _____.

cold and rough

clear and smooth

6. The author compares frozen bubbles to crystal beads because they are both _____.

round and clear

sharp and icy

A butterfly flies by. Its wings are like bright jewels. It stops at a flower. How does the butterfly move? How do its wings look? What does the flower look like? How does it smell? Now revise the draft by adding sensory words about the butterfly and the flower.		Draft Model

Write to Sources

Ryan used text evidence to answer the prompt: In your opinion, which poem, "Rain Poem" or "Windy Tree," best helps you to picture what the poem is talking about?

The poem "Windy Tree" gives me the clearest picture. I read that the tree's trunk is very strong. It's like a leg with many muscles. It holds on with its foot and "its wide-spread toes" while the wind blows hard. These words help me visualize the tree. I can see its strong branches and feel the rough bark of the tree trunk. I understand how strong it is.

The author of "Rain Song" compares the rain to a little gray mouse. She says that the rain found an open window and "left tracks across the sill." I can picture a furry gray mouse, and I know how shy some mice are. I think the rain is not a storm, but gentle drops. However, the description the author uses in "Windy Tree" gives me a clearer picture of the strong tree blowing in the wind than the description of the rain falling in "Rain Song."

Reread the passage. Follow the directions below.

- 1. The weather is very different in these poems. Underline a detail that supports the child's opinion.
- 2. Draw a box around the text evidence that helps you describe what you see in your mind.
- 3. Circle the text evidence that sums up Ryan's opinion.
- Write an example of a contraction that is used in the model.

- A. Read each clue below. Circle the vocabulary word that matches the clue.
- I. not inside a building

outdoors

drops

2. to be a very light color

pale)

outdoors

3. give a strong feeling of enjoyment

pale

excite

4. small amounts of liquid

excite

drops

- B. Read each sentence. Choose the word that best completes the sentence. Then write the word on the line.
- 5. She painted the room a _____ color of yellow.

(outdoors, pale)

6. Going on a field trip will _____

excite

the class.

(excite, drops)

7. Our family had a picnic _____outdoors

(pale, outdoors)

8. My umbrella keeps me dry from the _____drops

of rain.

(drops, excite)

The letters *are, air, ear,* and *ere* can stand for the vowel sound you hear in *air*.

A. Circle the letters that stand for the vowel sound in each word. The first one has been done for you.

I. dare

2. pear

3. stairs

4. chair

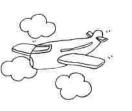

5. there

6. care

When a vowel or a pair of vowels is followed by the letter r, it changes the vowel sound. The vowels and the r stay in the same syllable.

B. Draw a line to break each word into syllables. Then draw a line to the picture. The first one has been done.

7. starling

8. pitcher

9. airplane

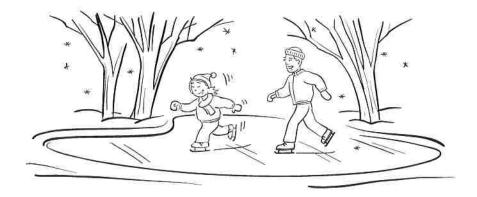

Read the poem. Use the visualize strategy to form pictures in your mind about what happens in the poem.

The First Skate

The temperature has been below freezing for days.

- 8 The pond is frozen now,
- 13 The ice is as smooth as glass.
- 20 I can ice skate outdoors
- 25 For the first time this winter.

A Rainy Day

The rain is falling, falling down,
I don't want to stay inside.
The rain is dripping, dripping slowly,
Will it rain all day?
The rain is stopping, stopping now,
I can go out to play!

Answer the questions about the text.

I. A poem tells a poet's thoughts and sometimes has repeated words. What is one thing that helps you know this text is a poem?

It has words that repeat.

2. What words does the poet repeat in the poem?

falling, dripping, stopping

3. What do the repeated words help you understand about the rain?

Possible response: They show the different ways it rains.

A simile compares two different things using the word like or as.

A. Read the lines from the poem. Finish each sentence to tell about the two things the author compares.

The ice is as smooth as glass.

glass The author compares the ice to ____

2. The sky curves like a blue bowl overhead.

The author compares the sky to ____a blue bowl

3. Frozen bubbles in the ice look like crystal beads.

crystal beads The author compares the frozen bubbles to

4. My cheeks turn as red as apples.

apples The author compares the girl's cheeks to

- B. Circle the answer to complete each sentence.
- 5. The author compares the ice to glass because they are both _____.

cold and rough

clear and smooth

6. The author compares frozen bubbles to crystal beads because they are both_

round and clear

sharp and icy

A. Read the draft model. Use the questions that follow the draft to help you think about what sensory words you can add.

Draft Model

A butterfly flies by. Its wings are like bright jewels. It stops at a flower.

- I. How does the butterfly move?
- 2. How do its wings look?
- 3. What does the flower look like? How does it smell?
- B. Now revise the draft by adding sensory words about the butterfly and the flower.

Answers will vary bu	it should include sensory words	s about the butterfly and
the flower.		

Ryan used text evidence to answer the prompt: In your opinion, which poem, "Rain Poem" or "Windy Tree," best helps you to picture what the poem is talking about?

The poem "Windy Tree" gives me the clearest picture. I read that the tree's trunk is very strong. It's like a leg with many muscles. It holds on with its foot and "its wide-spread toes" while the wind blows hard. These words help me visualize the tree. I can see its strong branches and feel the rough bark of the tree trunk. - 1. The weather is very different in these poems. Underline a detail that supports the child's opinion.
- 2. Draw a box around the text evidence that helps you describe what you see in your mind.
- Circle the text evidence that sums up Ryan's opinion.
- 4. Write an example of a contraction that is used in the model.

It's

HOW TO USE THIS BOOK

180 Days of Math for Second Grade offers teachers and parents a full page of daily mathematics practice activities for each day of the school year.

Easy to Use and Standards-Based

These activities reinforce grade-level skills across a variety of mathematical concepts. The questions are provided as a full practice page, making them easy to prepare and implement as part of a classroom morning routine, at the beginning of each mathematics lesson, or as homework.

Every second-grade practice page provides 8 questions, each tied to a specific mathematical concept. Students are given the opportunity for regular practice in each mathematical concept, allowing them to build confidence through these quick standards-based activities.

Question	Mathematics Concept	NCTM Standard
1	Number Sense	Understands numbers, ways of representing numbers, relationships among numbers, and number systems
2	Addition	Understands meanings of operations and how they relate
3	Subtraction	to one another; Computes fluently and makes reasonable estimates
4	Algebraic Thinking	Understands patterns, relations, and functions; Represents and analyzes mathematical situations and structures using algebraic symbols
5	Geometry	Analyzes characteristics and properties of two-dimensional and three-dimensional geometric shapes and develops mathematical arguments about geometric relationships
6	Measurement	Understands measurable attributes of objects and the units, systems, and processes of measurement; Applies appropriate techniques, tools, and formulas to determine measurements
7	Data Analysis	Formulates questions that can be addressed with data and collects, organizes, and displays relevant data to answer them; Selects and uses appropriate statistical methods to analyze data
8	Word Problem/Logic Problem or Mathematical Reasoning	Builds new mathematical knowledge through problem solving; Solves problems that arise in mathematics and in other contexts

Standards are listed with the permission of the National Council of Teachers of Mathematics (NCTM). NCTM does not endorse the content or validity of these alignments.

This Is North America

by Susan LaBella

Earth is divided into seven large bodies of land called continents. The continents are Asia, Europe, Africa, North America, South America, Antarctica, and Australia.

North America is the third-largest continent in the world. Twenty-three countries are part of this continent. The largest are Canada, the United States, and Mexico. North America also includes the world's largest island, Greenland.

ReadWorks*

This Is North America

Look at a map of North America. Does the map have a compass rose? The compass rose shows where north, south, east, and west are. The Atlantic Ocean is to the east of North America. Off the west coast is the Pacific Ocean. The Arctic Ocean is north of the continent. The Gulf of Mexico and the Caribbean Sea are southeast of the continent.

North America has many rivers. One of the biggest is the Mississippi. The Mississippi River flows down the middle of the United States from north to south. Many ships travel up and down this very long river.

The highest mountaintop in North America is Mount Denali in Alaska. Imagine piling 14 Empire State Buildings on top of each other. Even if you could, you still would not be as high as the top of Mount Denali!

Name: Date:
1. What is the third-largest continent in the world?
A. Europe
B. North America
C. Asia
2. The article lists the oceans that are next to North America. One of these oceans is the Atlantic Ocean. What are the other two oceans?
A. the Arctic Ocean and the Caribbean Sea
B. the Pacific Ocean and the Caribbean Sea
C. the Pacific Ocean and the Arctic Ocean
3. Mount Denali is very high.
What information from the text supports this conclusion?
A. "North America is the third-largest continent in the world. Twenty-three countries are part of this continent. The largest are Canada, the United States, and Mexico."
B. "Imagine piling 14 Empire State Buildings on top of each other. Even if you could, you still would not be as high as the top of Mount Denali!"
C. "The Mississippi River flows down the middle of the United States from north to south. Many ships travel up and down this very long river."
4. Based on the information in the article, which ocean is the Gulf of Mexico probably closest to?

5. What is the main idea of this article?

A. the Atlantic Ocean

B. the Arctic Ocean

C. the Pacific Ocean

A. A compass rose is a part of a map that shows where north, south, east, and west are.

- B. Earth is divided into seven large bodies of land, including Asia, Europe, Africa, and North America.
- C. North America is a continent with oceans on its sides, many rivers, and a high mountain.

6. Read this paragraph from the article.

"The highest mountaintop in North America is Mount Denali in Alaska. Imagine piling 14 Empire State Buildings on top of each other. Even if you could, you still would not be as high as the top of Mount Denali!"

Why might the author tell readers to imagine piling 14 Empire State Buildings on top of each other?

- A. to help readers understand how high Mount Denali is
- B. to warn readers about the danger of climbing tall mountains
- C. to persuade readers that Alaska is a great place to live
- 7. Choose the answer that best completes this sentence.
 The Empire State Building is tall, ______ it is not as tall as Mount Denali.

 A. so
 B. because
 C. but
 8. What part of a map shows you where north, south, east, and west are?
 9. According to the article, what is one of the biggest rivers in North America?

10. Summarize the information in the article by writing a single sentence describing

Answer Key

6. Read this paragraph from the article.

"The highest mountaintop in North America is Mount Denali in Alaska. Imagine piling 14 Empire State Buildings on top of each other. Even if you could, you still would not be as high as the top of Mount Denali!"

Why might the author tell readers to imagine piling 14 Empire State Buildings on top of each other?

- A. to help readers understand how high Mount Denali is
- B. to warn readers about the danger of climbing tall mountains
- C. to persuade readers that Alaska is a great place to live
- 7. Choose the answer that best completes this sentence.

The Empire State Building is tall, it is not as tall as	Mount	Denali.
---	-------	---------

- A. so
- B. because
- C. but
- 8. What part of a map shows you where north, south, east, and west are?

A compass rose shows you where north, south, east, and west are.

9. According to the article, what is one of the biggest rivers in North America?

The Mississippi River is one of the biggest rivers in North America.

10. Summarize the information in the article by writing a single sentence describing North America.

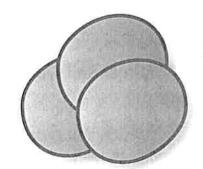

Answers may vary as long as they provide an accurate summary of the article. For example: North America is a continent with twenty-three countries, many rivers, a high mountain, and oceans on every side of it.

Types of Soil

Soil differs greatly from place to place, but all soil is made up of different amounts of three types of particles: sand, silt and clay.

What are the types of soil particles?

Sand is the largest particle found in soil. When you rub it, it feels rough and gritty. Sand does not have many nutrients, but it dries quickly after rainfall, and it is good for *drainage*, which means it lets water flow through it easily.

Silt is the medium-sized particle found in soil. Silt feels smooth and powdery when dry, and it feels slippery when wet. Silt can be packed down into a crust that makes it harder for water and air to pass through it.

Clay is the smallest particle found in soil. Clay feels smooth and hard as stone when dry, and it feels sticky when wet. While clay can hold many nutrients, it does not allow much air or water to pass through. Too much clay can make the soil heavy and not good for growing plants.

Loam is a mix of sand, silt and clay. It is the best type of soil for growing plants. Loam breaks up easily and holds moisture and nutrients, while still allowing some water and air to pass through.

Types of Soil

Response Questions

Which soil type can become hard as stone when dry?	
Which soil type dries out quickly after a rainfall?	
Which soil type would be best for building a structure?	3/8/1/
Which soil type would a gardener need to break up every now armore drainage?	nd then to allow
Which soil type would a cactus do well in?	a . 0

TRY THIS!

Dig down at least six inches and grab a handful of soil. Soak it with water and roll it into a ball in your hand.

If you cannot make a ball out of it, it is mostly **sand**.

Silt

If it forms a loose ball but crumbles when squeezed it is mostly silt.

Clay

If it forms a packed ball and can be reshaped into a snake, it is mostly clay.

Sand
